

Ariett Corporate Overview: Innovative Purchase to Pay Software

Ariett’s cloud procurement and accounts payable platform generates savings on every contract, requisition, invoice, payment and expense report. Designed to work the way you work, Ariett’s easy-to-use web application delights employees by running on any mobile device or desktop. Accounting teams everywhere benefit from upfront purchasing control, global visibility to spending and audit trails, which drive cost savings across the enterprise.

Serving over 2200 mid-market and mid-enterprise customers primarily in Software/Technology, Business Services, Non-Profit, Healthcare and Education industries, Ariett helps organizations to better manage spend with an end-to-end purchase to payment solution that includes seamless integration with leading accounting systems.

Our Community at a Glance:

- Ariett is Certified as an Application on the Microsoft Azure Platform.
- Microsoft Gold Certified ISV Partner (2001-present)
- Ariett Products independently tested by Microsoft through VeriTest™

What the Ariett Community is Saying:

Healthcare

“Setup went quicker than I anticipated, thanks to Ariett’s systematic implementation plan. I would say that we will save about half of our requisition, approving, ordering and receiving time. I look forward to continuing a great working relationship with Ariett.”

~ **Tim Ringelberg**,
Purchasing/Inventory Manager

Financial Services

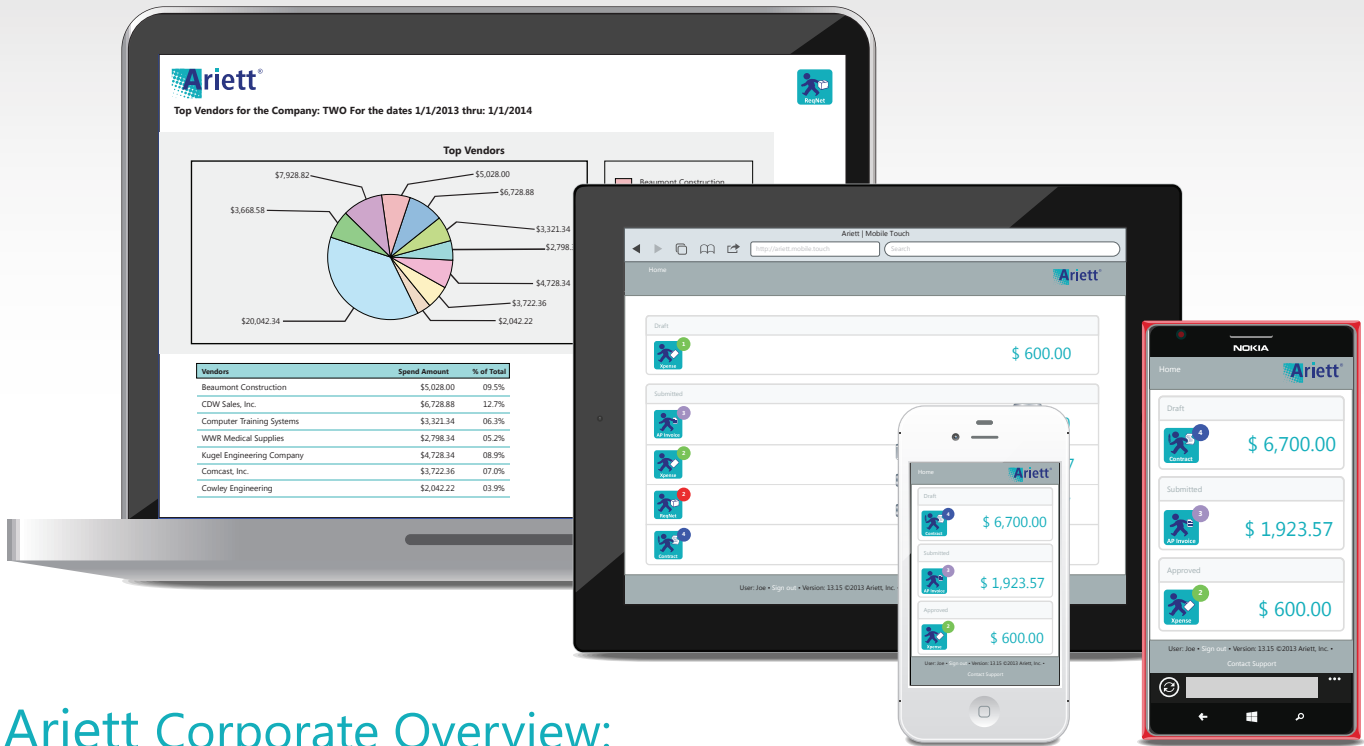

“Ariett enables us to adopt a fully operational requisition and order process and ensure that the majority of our spend is approved in advance; this will provide a much tighter cost control mechanism.”

~ **Richard Bennett**,
Corporate Controller

“Our customers have taught us that ease of use only begins the conversation. Ultimately, our customers are looking for business automation across purchase order and accounts payable processes on one solution with mobile capabilities to meet their business demands.”

~ **Glenn Brodie**,
President,
Ariett

Ariett Corporate Overview:

Solutions for Your Success

Ariett Cloud Purchase to Pay Software sets a new standard for spend management on a single platform for both desktop and mobile devices.

AP Invoice to Payment Automation

Enhance the productivity of your AP department by using Ariett's Document Capture Service to allow employees to easily enter and managers to quickly approve AP Invoice transactions. Eliminate paper check processing costs and gain secure ACH, virtual card and check payment processing.

Requisition & PO Management

Our procurement solution covers everything from requisitioning to creating purchase orders to receiving. Ariett saves you money by providing you with visibility to purchases against budget and helping employees to easily buy online from preferred vendors with contract pricing.

Travel & Expense Reporting

Expedite expense report submission and approval and ensure employees' compliance with expense policies. Use Ariett Software for trip approval, paperless receipt management and corporate/personal credit card integration.

Ariett Mobile Touch

Ariett Touch brings innovative mobile ready technology to your business. Use Ariett's entire software suite on any web-enabled mobile device.

Contract Tracking

Ariett's Contract Tracking allows your organization to track, approve and store capital projects or vendor contracts. By providing you with role-based visibility to and reports on contract budgets and spending, Ariett helps you to control procurement costs.
